

Position: Environmental Engineer
Project Location: Philadelphia, PA
Status: Full-Time (exempt)
Compensation: Salary

Sci-Tek Consultants, Inc., a civil, environmental, and geotechnical engineering and surveying firm is seeking an entry level Environmental Engineer for Municipal Separate Storm Sewer (MS4) support, planning and regulatory compliance of stormwater permits and other related work as required. The successful candidate will perform assignments of limited but increasing scope and complexity to develop the knowledge and abilities of the engineer. The assignments require evaluative thinking and are carried out in accordance with standard engineering practices and general work instruction. Completed work is used as a basis by others to further engineering projects. The work performed is under the supervision of a higher-level engineer.

Required Skills and Abilities

- Make engineering computations, sketches and engineering drawings
- Interpret and check design details, estimates, engineering plans and specification for accuracy of engineering details
- Analyze and apply state and federal environment requirements and guidelines
- Effectively express ideas verbally and in writing

Education and Experience

- The position requires a bachelor's degree from an accredited college or university with major course work in environment, civil or chemical engineering.

Sci-Tek offers competitive compensation including health benefits and 401K Profit Sharing Plan and is an equal opportunity employer that seeks to be a premier provider of innovative, value-added solutions to its clients' many challenges through the application of civil, geotechnical, and environmental engineering and surveying.

To apply, submit a cover letter and resume to:
