

Position: Water Resources Engineer

Project Location: Downtown (Pittsburgh)

Status: Full-Time (nonexempt)

Compensation: Based on experience

Sci-Tek Consultants, Inc., a civil, environmental, and geotechnical engineering and surveying firm is seeking a Water Resources Engineer having at least 6 years' experience with the design of green stormwater infrastructure (GSI) facilities, stormwater management facilities, and municipal storm sewers. Experience in the water and wastewater treatment, site development, aviation, higher education or transportation industries is a plus. The successful candidate will perform a wide variety of duties to support assigned projects, including coordination and design of stormwater management solutions; preparation of base plans, detailed designs, and construction documents; permitting; client interface; project management; proposal and budget preparation, and business development.

Required Skills/Experience

- 6+ years of professional experience in the water resources field.
- Licensed Civil Engineer is preferred.
- GSI and stormwater management design and inspection in urban areas.
- Experience working with the Pittsburgh Water and Sewer Authority (PWSA), the City of Pittsburgh or other local municipalities, and the Pennsylvania Department of Environmental Protection is preferred.
- Proficiency with AutoCAD Civil 3D or ArcGIS
- Strong written and verbal communication skills.

Sci-Tek offers competitive compensation including health benefits and 401K Profit Sharing Plan and is an equal opportunity employer that seeks to be a premier provider of innovative, value-added solutions to its clients' many challenges through the application of civil, geotechnical, and environmental engineering and surveying.
