

Position: Construction Inspector – Water & Sewer/Utilities

Project Location: Pittsburgh, PA

Status: Full-Time (nonexempt)

Compensation: Based on experience

Sci-Tek Consultants, Inc., a civil engineering and surveying firm, seeks to combine the most advanced science and technology to provide innovative solutions to its clients. The firm's employees meet that mission expeditiously and effectively with value-added answers to the many and varied challenges that are best met by the broad disciplines of civil, environmental, and geotechnical engineering and surveying. Due to continued growth, we are currently seeking professionals with 5 plus years of experience working with water and waste water treatment or utilities and construction inspection projects for its Pittsburgh office. The successful candidate will perform construction inspection and administration services, attend job project meetings, review estimates and change orders, and perform other duties as required.

Required Skills/Experience

- Construction inspection experience on roadway restoration or water and sewer utility projects.
- Proficiency with drafting/sketching installed work.
- Good writing skills with documenting work in daily reports.
- Good computational skills with calculating quantities for payment.
- Ability to read and interpret drawings and specifications.

Sci-Tek offers competitive compensation including health benefits and 401K Savings Plan, and is an equal opportunity employer that seeks to be a premier provider of innovative, value-added solutions to its clients' many challenges through the application of civil, geotechnical, and environmental engineering and surveying.
